

WINTER GIFT · CRAFT

Stars of light

A flame-free decoration to fill your home with light... and lovely things.

20 minutes | Ages 4 to 8 | No flames: battery LED lights

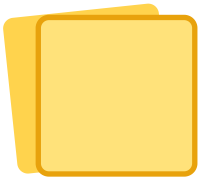
INSIDE YOU'LL FIND

1. What you need
2. Step by step with pictures
3. Star template

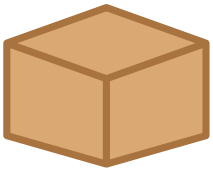
> Make it at home or at school. In winter, with the people we love.

What you need

Get everything ready on the table before you start.



Yellow card or the printed template



Thin cardboard (a cereal box)

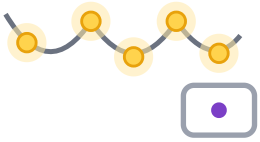
Round-tip scissors

Glue stick

Crayons or coloured pencils

String or yarn

A branch or a stick



Battery-powered LED string lights

BEFORE YOU START

- Use **battery LED lights only**: they don't get hot. No candles, matches or flames.
- The grown-up **cuts the cardboard**, makes the little holes and puts in the batteries. Keep the battery box closed and out of reach of little ones.
- In class, one string of lights for the whole group is enough.

The magic idea

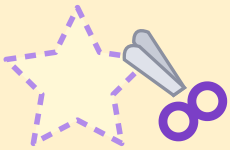
On each star, draw **something that makes you shine** or **someone you love**: your grandma, your pet, your favourite song, your best friend...

Step by step

Six steps and your home will shine.

1 Decorate

Draw something that makes you shine on each star.



2 Cut

Cut along the dotted line.

With a grown-up

3 Glue

Glue it onto cardboard to make it strong.

With a grown-up

4 Little hole

Make a little hole at the top and thread the string.

With a grown-up

5 Hang

Tie the stars to the branch at different heights.

6 Light!

Wrap the LED lights around the branch and switch them on.

With a grown-up

Your home shines with no flames!

? Who did you draw on your biggest star?

Star template

Colour, decorate and cut along the dotted line.
